

# 2019 Installer Certification Program Metal Roofing Project Resume

A complete list of metal roofing projects is required for those attending NCI's Installer Certification Program with intent of becoming a certified installer. Resumes that are missing information will prevent certifications from being processed. Fill in the information for a minimum of five previous projects with all requested information below:

***Please ensure all entries are legible. Projects listed are not required to have been NCI specific products but must be metal cladding systems.***
